Installation Guide

Heavy Duty 80

Site Preparation

Hedge can be placed directly onto soil, road base, sand, concrete surfaces & slabs. Site prep required is at the discretion of the installer dependent on above or below ground use.

Joining

Simply insert Hedge custom made straight joiners into the edging profile for a seamless, uninterrupted garden edge.

Fixings

- ✓ Use 1 x 250mm Fixing Spike per metre
- ✓ Use 1 x Spike Guide per metre

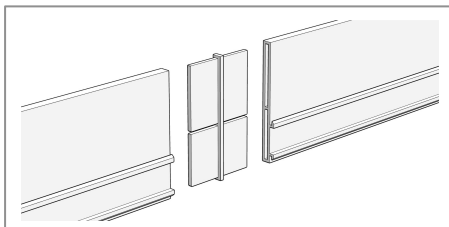

Corners

Achieving the perfect right angle is easy with Hedge custom made corner joiners. No additional screws or fixings are required.

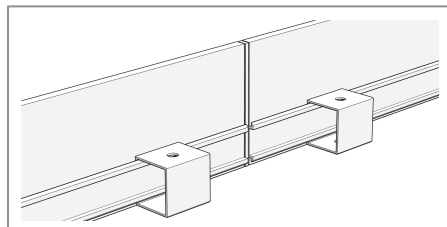

Curves

Bend flex edge to the desired shape to create sweeping curves easily.

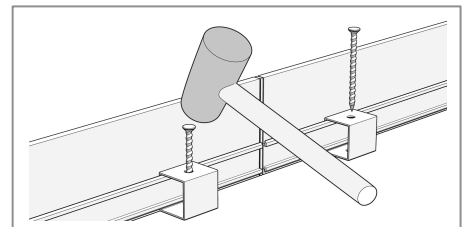

Step 1 - Join

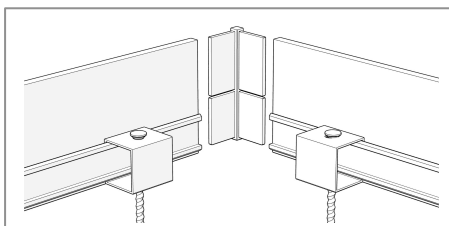

Step 2 - Connect

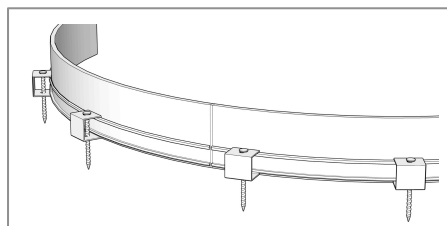

Step 3 - Install

Step 4 - Corners

Step 5 - Curves

Step 6 - Backfill
